PROFILE

Fresh graduate in Information and Communication Engineering from the Institute of Technology of Cambodia (ITC), with practical experience in web development through internships and academic projects. Experienced in developing frontend and backend features using Laravel, Vue.js, and NestJS, with knowledge of MySQL and PostgreSQL. Seeking a full-time Software Developer position to apply technical skills, contribute to software development projects, and continue growing professionally.

CONTRIBUTED PROJECT & EXPERIENCE

Sport Venue Booking System (GitHub)

- Developed a web application using Vue.js for the frontend and NestJS for the backend.
- Designed responsive UX/UI and implemented dynamic venue detail pages.
- Created category-based filtering to improve navigation and venue browsing.

BrewMate Caffe App (Github link)

- Built a mobile app following HCI principles
- Translate UI/UX design into a functional Flutter app and apply state management.

Research Innovation Science (GitHub Link)

Web Development Intern at ITC 01/07/2025- 06/10/2025

Developed a research management platform using Laravel and PostgreSQL, contributing to both frontend and backend development.

- Implemented authentication, registration, and authorization, research management, publication search, question modules, and author profile features.

Doctor Digital Marketing Plan System

Web Development Intern at Laor Media 16/02/2026- 16/06/2026

A web-based marketing management system that helps agencies manage client projects, create and approve content, track revisions, publish content to Facebook Pages.

- Developed the frontend and backend using Laravel and MySQL.
- Implemented project management, content approval workflow, revision tracking, and Facebook publishing integration.
- Designed the database and built responsive, user-friendly interfaces.

Volunteer

Techno Innovation challenge Cambodia

Institute of Technology of Cambodia 24/05/2025- 22/06/2025

- Volunteer as part of a team that registers to recruit members of the team competition and help improve the feature event.
